## RECRUITMENT TO RETIREMENT AND BEYOND

Building a sustainable mental health program for law enforcement

POLICE MENTAL HEALTH SYMPOSIUM  
WASHINGTON DC

16-17 MAY  
2018

The Australian Federal Police Mental Health Symposium 2018 will provide a forum for policing agencies to discuss the challenges and global best practices in mental health policy. Experts and policing leaders will discuss:

- Establishing useable frameworks for PTSD and other mental health challenges
- Developing employer best practice guidelines
- How to communicate to effectively change the perception of mental health
- The importance of leadership in developing and maintaining successful programs, and,
- Building sustainable mental health programs, from recruitment to retirement for police officers

The symposium is specifically targeted at a policing audience, and will be informed by the experiences of serving police officers. The symposium will include a working session to equip participants to develop outcomes specific to their agency.

#AFPGMHS2018

The symposium is open to local, state and federal policing agencies, as well as partner agencies in relevant fields.
